ALIGNMENT WITH RECOMMENDED APPROACH

Social Impact Research (SIR) recommends college access and success programs that include the three components shown in the table to the right. This table shows some of the activities the organization undertakes related to each component.

OUTCOMES

The population served should be considered when reviewing outcomes. While organizations that serve a high risk population may report lower success rates, they often provide a greater opportunity for return on investment.

INVESTMENT RATIONALE

WHY LEGAL OUTREACH?

For over 20 years, Legal Outreach (LO) has been utilizing law-related education to motivate underserved students to enter and be successful in college. LO invites 8th grade students who attend the Summer Law Institute to apply to the College Bound program, which provides academic enrichment and support to prepare students for college and exposes them to career paths within the legal sector. 68% of LO’s College Bound participants matriculate to “most competitive” and “highly competitive” colleges (Barron’s top two selectivity categories).

WHY INVEST NOW?

LO has recently moved into a larger space to accommodate expansion; investment in its proven model will enable the following growth:

- Increase students served from 60 to 70 per cohort by 2012, with a future goal of 100 per cohort
- License the LO curricula and train teachers in 12 public and charter schools by 2012
- Explore feasibility to spread the LO Summer Law Institute and College Bound model to five sites across the nation
- Increase administrative and program staff to maintain quality as the program grows

POPULATION SERVED

LO serves talented, predominantly low-income, minority students from underserved communities in Manhattan, Brooklyn, Queens, and the Bronx.

FAMILY INCOME

- 35% Below Federal Poverty Line
- 14% Low-income
- 31% Modest-income

RACE AND ETHNICITY

- 35% Multi-racial
- 9% Asian
- 33% Black
- 2% White
- 21% Hispanic
- 0% Native American

SOCIAL AND ECONOMIC OUTCOMES HIGHLIGHTS

SIR recommended organizations also engage in systemic change activities to create social impact. Systemic change activities include advocacy, research, and collaboration, enabling nonprofits to affect the larger college access and success field and reach populations not served directly.

LO is able to expand its reach to students it cannot serve directly through the following activities:

- Creating law-related classroom curricula to provide legal information and practical knowledge to NYC public school teachers
- Providing training workshops for teachers and schools interested in using its law curricula or establishing a mock trial program
- Licensing the use of LO’s curricula and model to New Jersey Law & Education Empowerment Project (LEEP), an organization founded by a former LO employee
- Planning to share best practices by writing and publishing articles profiling LO’s program components

UNIQUE ASPECTS OF THE PROGRAM

LO’s distinctive law focus allows for a number of unique program offerings, including:

- Summer law internships through partnerships with 33 law firms, 5 financial institutions, 3 governmental departments, 4 public interest organizations, and 10 judges
- Law-focused academic enrichment, including summer law institutes, constitutional law debates, persuasive writing classes, and an intensive philosophy class taught by a college professor
- Individualized support provided by lawyers who mentor students from sophomore through senior year of high school

ORGANIZATIONAL HEALTH HIGHLIGHTS

SIR assesses financial sustainability by evaluating the following indicators over three years: debt to equity ratio, current ratio, cash reserves, funding diversity, and growth rate.
